1. Proposal Title

Starting fee , international judges

2. Background / Rationale

Explain why this proposal is important, what problem it addresses, or what opportunity it creates.

Our Rules say : At World and Continental Championships every participating nation is obliged upon demand by the arranging organisation to participate with one international judge.

But the Rules dont say what should happen if the nation refuses to participate with at least one Int. Judge for whatever reason.

The Board faced difficulties in 2025 season to nominate appropriate number of Int. Judges for World Championships

3. Proposal Statement

Clearly state the action, decision, or resolution that you propose the General Assembly adopt. Use direct and formal wording, e.g.:

"The ICSF General Assembly resolves that..."

We propose : to add following wording to the Article 27, of Rules

.In case the participating nation is not able to participate with at least one international judge upon the request of the arranging organization, is obliged to pay a fee to the arranging organization to cover expenses of appointing international judge from another nation. The fee amount will be decided by the Board and will be announced each Year. Payment will be due to ICSF Bank account.
