

Proposal to remove event 6 and 7 from the program at the Junior World Championships

The Swedish Casting Sport Federation propose that event 6, fly distance double handed, and event 7, spinning distance double handed, is removed from the program at the Junior World Championships. This means that the program at Junior World Championships consists of casting events 1-5.

Why do we propose this?

The Swedish Casting Sport Federation supports the new implementation of age group 19-23 years at the Junior World Championships. However, we can't see any reason why event 6 and 7 should contribute to the sustainability and motivation of young casters. We believe that the Junior World Championships should be an entry to competing on an elite level. The events in the program should therefore mirror the events that young casters usually start with.

There is also the aspect of age and gender equality at the competition. Girls are not allowed to compete in either event 6 nor 7. We see no reason to add events to the program that is only available for boys. We would like to see all age groups and genders compete in the same events.

With best intentions,

Linnea Morild, 2023-09-22

Linnea Morild, president of the Swedish Casting Federation
